

CORPORATE GOVERNANCE STATEMENT

This Corporate Governance Statement of Transmetro Corporation Limited (the 'Company') has been prepared in accordance with the 4th Edition of the Australian Securities Exchange's ('ASX') Corporate Governance Principles and Recommendations of the ASX Corporate Governance Council ('ASX Principles and Recommendations') and is included in the Company's Annual Report pursuant to ASX Listing Rule 4.10.3. This listing rule requires the Company to disclose the extent to which it has followed the recommendations during the financial year, including reasons where the Company has not followed a recommendation and any related alternative governance practice adopted.

The Company's ASX Appendix 4G, which is a checklist cross-referencing the ASX Principles and Recommendations to the relevant disclosures in either this statement, our website or Annual Report, is contained on our website at <http://metrohotels.com.au/about/corporate-governance/>

Both this Corporate Governance Statement and the ASX Appendix 4G have been lodged with the ASX. This statement has been approved by the Company's Board of Directors ('Board') and is current as at 31st October 2024.

The ASX Principles and Recommendations and the Company's response as to how and whether it follows those recommendations are set out below.

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1 - A listed entity should have and disclose a board charter setting out:

- (a) the respective roles and responsibilities of its board and management; and***
(b) those matters expressly reserved to the board and those delegated to management.

The Company recognises that corporate governance is fundamental to the effective operation of the Company. The Board is the pivotal element of corporate governance, and the Company desires its Board to be effective, independent, representative of stakeholders and valuable to the organisation.

The Board's role is to provide governance of the Company in the best interests of shareholders, having regard to the interests of all stakeholders of the Company. The specific responsibilities of the Board include:

- the overall corporate governance of the Company including its strategic direction, financial objectives, and overseeing (or supervision) of control and accountability systems.
- input into and approval of strategic plans and goal and performance objectives, key operational and financial matters, as well as major investment and divestment proposals;
- being accountable for the performance of the Company;

**TRANSMETRO
CORPORATION LTD
CORPORATE GOVERNANCE STATEMENT**

The Board has delegated the day-to-day management of the Company to the MD and other senior executives ('management'). The Company's management is responsible for the following:

- implementing the strategic objectives set by the Board;
- operating within the risk parameters set by the Board;
- operational and business management of the Company;
- managing the Company's reputation and operating performance in accordance parameters set by the Board;
- day-to-day running of the Company;
- providing the Board with accurate, timely and clear information to enable the Board to perform its responsibilities; and
- approving capital expenditure (except acquisitions) within delegated authority levels.

Senior executives have their roles and responsibilities defined in specific position descriptions.

Recommendation 1.2 - A listed entity should:

- (a) undertake appropriate checks before appointing a director or senior executive or putting someone forward for election as a director; and***
- (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.***

Before appointing a director or senior executive, or putting forward to shareholders a director for appointment, the Company undertakes comprehensive reference checks. Directors are required to declare each year that they have not been disqualified from holding the office of director by the Australian Securities and Investments Commission ('ASIC').

An election of directors is held each year. A director that has been appointed during the year must stand for election at the next Annual General Meeting ('AGM'). Directors are generally appointed for a term of three years. Retiring directors are not automatically re-appointed.

Newly appointed directors must stand for re-election at the next Annual General Meeting in accordance with clause 16 of the Constitution.

Non-executive directors retire by rotation in accordance with clause 16 of the Constitution.

The Company provides to shareholders for their consideration information about each candidate standing for election or re-election as a director that the Board considers necessary for shareholders to make a fully informed decision. Such information includes the person's biography, which include experience and qualifications, details of other directorships, adverse information about the person that the Board is aware of including material that may affect the person's ability to act independently on matters before the Board, and whether the Board supports the appointment or re-election.

Recommendation 1.3 - A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

The terms of the appointment of a non-executive director are set out in writing and cover matters such as the terms of appointment, time commitment envisaged, required committee work and other special duties, requirements to disclose their relevant interests which may affect independence, corporate policies and procedures, indemnities, and remuneration entitlements.

Senior executives are issued with service contracts which detail the above matters as well as the person or body to whom they report, the circumstances in which their service may be terminated (with or without notice), and any entitlements upon termination. Mr. McEvoy currently holds the role of Chairman and Managing Director. It is intended he will remain in this role.

Recommendation 1.4 - The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.

The Company Secretary reports directly to the Board through the Chairman and is accessible to all directors. The Company Secretary's role, in respect of matters relating to the proper functioning of the Board, includes:

- advising the Board and its Committees on governance matters;
- monitoring compliance of the Board and associated committees with policies and procedures;
- coordinating all Board business;
- retaining independent professional advisors;
- ensuring that the business at Board and committee meetings is accurately minuted; and
- assisting with the induction and development of directors.

Recommendation 1.5 - A listed entity should:

- (a) have and disclose a diversity policy;**
- (b) through its board or a committee of the board set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and**
- (c) disclose in relation to each reporting period:**
 - (1) the measurable objectives set for that period to achieve gender diversity;**
 - (2) the entity's progress towards achieving those objectives; and**
 - (3) either:**
 - (A) the respective proportions of men and women on the board, in senior executive positions and across the whole workforce (including how the entity has defined "senior executive" for these purposes); or**
 - (B) if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators"**

Transmetro embraces diversity. Diversity at Transmetro recognises and values the diverse blend of skills, experiences and perspectives from individuals, irrespective of culture, gender or age. Transmetro does not consider diversity just in a metric capacity and hence measurable objectives may be subjective depending upon the specific circumstance. Transmetro regularly reviews policies to ensure that the Company is compliant with the ASX Diversity Recommendations.

The Company has a diversity policy which requires the Board to set measurable objectives for achieving gender diversity and to assess the objectives and the Company's progress towards achieving them on an annual basis.

The policy aims to provide a work environment where employees have equal access to career opportunities, training and benefits. It also aims to ensure that employees are treated with fairness and respect, and are not judged by unlawful or irrelevant reference to gender, age, ethnicity, race, cultural background, disability, religion, sexual orientation or caring responsibilities. This commitment enables the Company to attract and retain employees with the best skills and abilities. Transmetro's objective is to ensure that each year its diversity statistics are equal to or an improvement on those of the previous year. A copy of the Diversity Policy is available on Transmetro's website.

As at 25 June 2024 Transmetro employed approximately 143 people, 40% of whom are female.

Transmetro's commitment to creating a flexible working environment and to putting people with the appropriate skills in the correct jobs has resulted in a richly diverse workplace. For example, women comprise 20% of the senior management roles.

The Board reviews its composition and assesses nominations for new appointments from time to time to ensure the Board benefits from diversity with regard to gender, skills and experience.

The respective proportion of women and men in the Company including its subsidiaries ('consolidated entity') as at 25 June 2024 are as follows:

	Portion of women	Proportion of men
On the Board	20%	80%
In senior executive positions	31%	69%
Across the whole organisation	40%	60%

For this purpose, the Board defines a senior executive as a person who makes, or participates in the making of, decisions that affect the whole or a substantial part of the business or has the capacity to affect significantly the Company's financial standing. This therefore includes all senior management and senior executive designated positions as well as senior specialised professionals.

CORPORATE GOVERNANCE STATEMENT

Recommendation 1.6 - A listed entity should:

- (a) have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and**
- (b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.**

The Board reviews its performance annually, as well as the performance of individual Committees and individual directors (including the performance of the Chairman as Chairman of the Board). The use of an external facilitator may be utilised periodically to assist in the review process.

The review for the current financial year occurred on 25th July 2024 and was led by the Chairman.

The process included collective Board discussions to capture observations for where improvements could be made and where processes worked well, individual interviews with each director conducted by the Chairman.

The review of the Chairman's role was conducted by the Board.

Recommendation 1.7 - A listed entity should:

- (a) have and disclose a process for evaluating the performance of its senior executives at least once every reporting period; and**
- (b) disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.**

The Board conducts an annual performance assessment of the MD. The MD undertakes assessments of senior executives against agreed performance measures determined at the start of the year. In assessing the performance of the individual, the review includes consideration of the senior executive's function, individual targets, group targets, and the overall performance of the Company.

The MD provides a report to the Board on the performance of senior executives together with remuneration recommendations which must be approved by the Board after consultation with the Remuneration Committee.

The last review of senior executives in accordance with this process was undertaken on 24th June 2024.

Principle 2: Structure the board to add value

Recommendation 2.1 - The board of a listed entity should:

- (a) have a nomination committee which:**
 - (1) has at least three members, a majority of whom are independent directors; and**
 - (2) is chaired by an independent director, and disclose:**
 - (3) the charter of the committee;**
 - (4) the members of the committee; and**
 - (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or**
- (b) if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively.**

The Board does not have a specific Nomination Committee. The Remuneration Committee, which consists of the whole Board, monitors succession issues and ensures the Board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively. This format is deemed appropriate given the Company's size and structure.

The Board:

- Assesses the skills and competencies required on the Board, from time to time assessing the extent to which the required skills are represented on the Board;
- Reviews of the performance of individual directors and the Board as a whole;
- Encourages and support Directors' professional development to enhance Director competencies;
- Ensures the identification of suitable candidates for appointment to the Board when required;
- Considers Board succession plans to maintain an appropriate balance of skills, experience and expertise on the Board;
- Considers recommendations for the appointment and removal of Directors;

TRANSMETRO CORPORATION LTD CORPORATE GOVERNANCE STATEMENT

- Approve remuneration strategy and policies for senior management and selected packaged employees as well as the individual remuneration arrangements and terms of employment for positions/individuals who are direct reports to the Chief Operating Officer (or similar), ensuring that remuneration policies are not only effective, but that they are also reported and explained to shareholders;
- Review the Company's Diversity policies and ensuring compliance with the ASX Diversity Recommendations.

Recommendation 2.2 - A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.

The Board's skills matrix indicates the mix of skills, experience and expertise that are considered necessary at Board level for optimal performance of the Board. It is therefore used when recruiting new directors and assessing which skills need to be outsourced based on the attributes of the current Board members. The existence of each attribute is assessed by the Board as either, High, Medium or Low.

Skill category	Description of attributes required	Level of importance	Existence in current Board
Risk and compliance	Identification of key risks to the Company related to each key area of operations. Monitoring of risks, satisfy compliance issues and knowledge of legal and regulatory requirements.	High	High
Financial and audit	Analysis and interpretation of accounting and finance issues including assessment and resolution of audit and financial reporting risks, contribution to budgeting and financial management of projects and Company, assessing and supervising capital management.	High	High
Strategic	Development of strategies to achieve business objectives, oversee implementation and maintenance of strategies, and identification and critical assessment of strategic opportunities and threats to the Company.	High	High

The Board currently believes that its membership adequately represents the required skills as set out in the matrix. External consultants may be brought in with specialist knowledge to address areas where this is an attribute deficiency in the Board.

In addition to the specific areas that are required at Board level identified in the matrix above, all members of the Board are assessed for the following attributes before they are considered an appropriate candidate.

Recommendation 2.3 - A listed entity should disclose:

- (a) the names of the directors considered by the Board to be independent directors;**
- (b) if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and**
- (c) the length of service of each director.**

The skills, experience and expertise relevant to the position of each director who is in office at the date of the Annual Report and their term of office are detailed in the director's report.

The Board assesses annually in June each year and at any time when a change occurs that may affect a director's independence, the independence of each director to ensure that those designated as independent do not have any alliance to the interests of management, substantial shareholders or other relevant stakeholders. They must be free of any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect, their capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company and its security holders generally.

An independent director is independent of management and free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

In assessing the independence of each director, the Board takes into consideration whether the director's shareholding in the Company, relationships with suppliers, customers and competitors, or tenure as a director of the Company would materially affect the director's ability to exercise unfettered and independent judgement in the interests of the Company's shareholders. Non-executive directors must formally advise the Chairman of any relevant information, and update the Chairman if their circumstances change at any time. Independent directors have the right to seek independent professional advice at the Company's expense in the furtherance of their duties as directors. Written approval must be obtained from the chairman prior to incurring any expense on behalf of the Company.

Details of the Board of directors, their appointment dated, length of service as independence status is as follows:

Director's name	Appointment date	Length of service at reporting date	Independence status
Alan Notley	01 October 1994	30 years	Independent Non-executive
Susan Notley (Alternate to Alan Notley)	01 September 2008	16 years	Independent Non-executive
David Lloyd	05 March 2002	22 years	Independent Non-executive
John McEvoy	30 November 1979	45 years	Non-independent Non-executive

The Board may determine that a director is independent notwithstanding the existence of an interest, position, association or relationship of the kind identified in the examples listed under Recommendation 2.3 of the ASX Principles and Recommendations.

TRANSMETRO CORPORATION LTD CORPORATE GOVERNANCE STATEMENT

Details of directors that the Board has declared as independent but which maintain an interest or relationship that could be perceived as impairing independence, and the reason as to the Board's determination are as follows:

Director's Name	Details of interest or relationship	Board reasoning why director is independent
Alan Notley	Holds 9,000 shares and no options	Alan Notley does not trade in the shares.

As part of its independence assessment, the Board considers the length of time that the director has been on the Board. The non-executive directors have been on the Board for a period which could be seen to compromise their independence. Such a period is generally considered to be in excess of 10 years. Being on the Board for a period in excess of 10 years does not however constitute an automatic deeming of non-independence. The Company does not consider length of tenure as disqualifying criteria for independence.

Where it is determined that a non-executive director should no longer be considered independent, the Company shall make an announcement to the market.

Recommendation 2.4 - A majority of the board of a listed entity should be independent directors.

Having regard to the response to Recommendation 2.3 above, the majority of the Board at the reporting date was not independent directors. The Board considers this composition is appropriate for a Company this size and adjusting the Board to achieve majority status is not necessary at this time.

Recommendation 2.5 - The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.

The Company does not have a CEO. The Chairman Mr. McEvoy currently holds the role of Chairman. It is intended he will remain in this role. Mr. McEvoy is also a significant shareholder in the Company. Given the depth of his Company experience and the size of the Company he is considered to be excellently placed to serve as Chairman, notwithstanding that pursuant to the ASX recommendation he is not considered an 'Independent' Chairman. The Non-Executive Directors meet as required without the Chairman being present. For these reasons the ASX recommendation for an independent Chairman has not been adopted. The Board regularly assesses the independence of each Non-Executive Director.

Recommendation 2.6 - A listed entity should have a program for inducting new directors and for periodically reviewing whether there is a need for existing directors to undertake professional development to maintain the skills and knowledge needed to perform their role as directors effectively.

The Board reviews its composition and assesses nominations for new appointments from time to time to ensure the Board benefits from diversity with regard to gender, skills and experience.

New directors are inducted by the Board and the Company Secretary on behalf of the Remuneration Committee. The induction includes strategy briefings, explanations of Company policies and procedures, governance frameworks, cultures and values, company history, director and executive profiles and other pertinent company information to enable them to discharge their director obligations as effectively as possible.

Recommendation 7.3 - A listed entity should disclose:

- (a) if it has an internal audit function, how the function is structured and what role it performs; or**
- (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its governance, risk management and internal control processes.**

The Board does not have an internal audit function as it is not considered economically viable/cost effective or necessary given the size of the Company. The Board reviews and considers accounts on a monthly basis and discusses internal control processes and risk management as appropriate from time to time.

Recommendation 7.4 - A listed entity should disclose whether it has any material exposure to environmental or social risks and, if it does, how it manages or intends to manage those risks.

The management of the Company and the execution of its growth strategies are subject to a number of risks which could adversely affect the Company's future development. The following is not an exhaustive list or explanation of all risks and uncertainties associated with the Company (and its subsidiaries), but those considered by management to be the principal material risks:

Customer base The Company needs to attract new and repeat customers, in sufficient numbers to grow the business, especially in markets where the Company already has a degree of market penetration. In order to do the Company is appealing to customers who have historically used other suppliers and channels to purchase products. The Company's strategy also seeks to have existing customers to make repeat purchases of products. If these strategies fail, the revenue may be reduced which could have an adverse effect on the financial results.

Competition and product mix The Company monitors competitors in its markets and seeks to differentiate itself from competitors by selling quality products and providing quality services to its customers. The Company's business could suffer if competitors increase their market share.

Patents, trademarks and brand reputation Maintaining and enhancing the brand is critical to the Company's strategies going forward. If the Company fails to meet customer expectations, negative publicity and complaints on social media platforms could damage the brand and ultimately reduce customers' willingness to buy from the Company. If the Company fails to maintain its brand or if excessive expenses are incurred in this effort, the Company's business, results of operations, financial condition and financial results may be materially and adversely affected. As with all brands, the Company is exposed to risk from unauthorised use of its trademarks and other intellectual property.

Cash and other financial risk The management of cash is of fundamental importance. At the reporting date the consolidated entity had a cash balance of \$7m (2023: \$5.9m). The working capital will be used to carry out the Company's growth and expansion plans. The Company is also exposed financial risks such as interest rate risk. Refer to the 'Financial Instrument' note to the financial statements for further information on these risks and how they are managed.

Loss of people The Company's senior executive team is instrumental in implementing the Company's strategies and executing business plans which support the business operations and growth. Service agreements are in place and the risk of the loss of key personnel is mitigated by regular reviews of remuneration packages (including short and long term incentive schemes) and succession planning within the team.

Equal opportunity The Company is committed to an active equal opportunities policy. It is the Company's policy to promote an environment free from discrimination, harassment and victimisation, where everyone will receive equal treatment regardless of gender, colour, ethnic or national origin, disability, age, marital status, sexual orientation or religion. Employment practices are applied which are fair, equitable and consistent with the skills and abilities of the employees and the needs of the Company.

CORPORATE GOVERNANCE STATEMENT

Principle 8: Remunerate fairly and responsibly

Recommendation 8.1 - The board of a listed entity should:

- (a) have a remuneration committee which:**
- (1) has at least three members, a majority of whom are independent directors; and**
 - (2) is chaired by an independent director, and disclose:**
 - (3) the charter of the committee;**
 - (4) the members of the committee; and**
 - (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings;**
- or**
- (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.**

The Board does not maintain a formal Remuneration Committee. The Remuneration Committee comprises the full Board and their attendance at meetings of the committee is detailed in the Directors' Report of the Company's Annual Report. The majority of the Committee members are not-independent. The Board considers that a formal remuneration committee would not provide improved efficiencies.

The Board oversees remuneration policy and monitors remuneration outcomes to promote the interests of shareholders by rewarding, motivating and retaining employees.

When considered necessary, the Board may obtain external advice from independent consultants in determining the Company's remuneration practices including remuneration levels.

Recommendation 8.2 - A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

Non-executive directors are remunerated by way of cash fees, superannuation contributions and non-cash benefits in lieu of fees. The level of remuneration reflects the anticipated time commitments and responsibilities of the position. Performance based incentives are not available to non-executive directors as it could be perceived to impair their independence in decision making.

Senior executives are remunerated using combinations of fixed and performance based remuneration. Fees and salaries are set at levels reflecting market rates having regard to the individual's performance and responsibilities. Performance based remuneration is linked directly to specific performance targets that are aligned to both short and long term objectives. Share options and rights are issued so as to align director and executive objectives with shareholder and the business objectives. Termination payments are detailed in individual contracts and payable on early termination with the exclusion of termination in the event of misconduct.

Further details in relation to the Company's remuneration policies are contained in the Remuneration Report, within the Directors' report of the Company's Annual Report.

Recommendation 8.3 - A listed entity which has an equity-based remuneration scheme should:

- (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and**
- (b) disclose that policy or a summary of it**

The use of derivatives or other hedging arrangements for unvested securities of the Company or vested securities of the Company which are subject to escrow arrangements is prohibited. Where a director or other senior executive uses derivatives or other hedging arrangements over vested securities of the Company, this will be disclosed.
